

ՆՈՐ ՄԻՋՈՑՆԵՐ՝ ՆՈՐ ՆՊԱՏԱԿՆԵՐ

"Nor Ej" social responsibility project is aimed at supporting those who have participated in military actions and have been demobilized. Within the framework of the project, about 1,000 young people aged 18-30 will be selected, with whom professional interviews will be conducted. Based on the obtained results, professional orientation programs, training courses in different professional directions will be organized.

"Nor Ej" project will cooperate with 500 organizations and it targets those Armenian employers, who highlight the importance of integration of young people that participated in military actions into the labor market.

The cooperation assumes that in accordance with the vacancy requirements provided by the company, training courses will be conducted with our target audience to ensure the recruitment of appropriate personnel for the company within the next six months.

Thus, you will have your contribution in the solution of this nationwide issue and you will demonstrate your social responsibility for the benefit of your company, our society, and our country.
